PRESENTATION OF TREGOTHNAN ENGLISH TEAS

Tregothnan The first tea was grown in the UK in 1999 to put the 'English into English Tea' and the most British tea in history was first sold in 2005. Now, over 26 miles of tea bushes thrive in the unique microclimate, seven miles inland and with a deep-sea creek bringing regular fog. Manuka bushes have also thrived here since the 1880's, the first grown outside of New Zealand and producing the most delicious honey, we have planted these on our own farm for our own Manuka honey out later this year.
